

VIRTUAL CARE IS ONLY PART OF THE PICTURE

Virtual care needs to be delivered by someone who can see the big picture surrounding your health – your own physician.

Your physician knows you, your medical information and what any changes or issues mean to your overall health.

Anonymous online providers only see certain pieces.

Talk to your doctor about how they can meet your virtual care needs. And if you don't have a doctor, you can find one at albertafindadoctor.ca.
