The AMA advances patient-centered, quality care by advocating for and supporting physician leadership and wellness.

Our initiatives as leaders, innovators and clinicians drive Patients First® as a cornerstone of the health care system.
Our member wellness and economic wellbeing in their practices and communities are supported by our comprehensive negotiated agreements and programs.
The voices of members — individually, regionally and within specialties — are heard and reflected within the system through our united voice of openness and accountability.
Our physicians are valued and respected throughout the system in their professional roles and through their unique relationships with patients and system partners.
