August 14, 2020

Dr. Molnar and Mr. Gormley,

On behalf of the Board and Staff of the Medical Society of PEI and the physicians of our province, we are writing to express our profound horror and sadness upon learning the news of the fatal attack on Dr. Reynolds.

It is the realization of everyone's worst fear, especially those who work on the front-line and so close to those who need care. And, it is a reminder that with the privilege to serve society, comes a risk to physicians and their families.

We will join you in spirit at the candlelight vigil and in celebrating the life of a valued family physician. In recognition of the unfathomable loss that his family has incurred, our organization will join AMA and others in making a contribution to the memorial fund that has been established in Dr. Reynolds' memory.

With fondness and in sympathy,

Dr. Kris Saunders
Board Chair

Dr. David Bannon
President

Lea Bryden
CEO
