

Team-based Care

Foundations for a high-performing health system

The **Accelerating Change Transformation Team (ACTT)** has been assisting Alberta physicians and teams to implement team-based care for **nearly a decade**. As **an innovator** in the team-based care space, ACTT continues to **develop** and **share** resources in a variety of formats to **support the diversity of teams** from across the province. **Free to you, funded by Alberta Health.**

Why Team-based Care?

It's about knowing your patient's needs and surrounding them with **customized care** when they need it.

Enhances quality of care	Improves health outcomes	Promotes chronic disease management	Increases patient satisfaction
Furtheres implementation of innovation & modernization	Boosts access to care	Reduces burnout	Raises healthcare workers' job satisfaction

ACTT integrates team-based care into a wide array of on-demand resources:
